

Job Title: Software Engineer Intern (Firebase, React, TypeScript)

Job Description:

We are seeking a talented and motivated software engineer intern to join our team. This is an exciting opportunity for a student or recent graduate to gain hands-on experience in a fast-paced, dynamic environment. As a software engineer intern, you will work closely with our CTO to progress our platform.

About the Company:

LyfeLit Co. is a rapidly growing education technology company that enables Emerging Adults to fully navigate the different societal systems. Our mission is to empower people to design their ideal lifestyles, by providing guidance and visibility to the transitioning moments in life. We are seeking a talented person to join our team and help bring inclusive growth to all people, and networks that power our society.

Responsibilities:

- Develop and maintain web applications using Firebase, React, and TypeScript
- Collaborate with our team to deliver high-quality code
- Participate in code reviews and provide constructive feedback
- Work closely with designers to ensure the best user experience

Qualifications:

- Currently pursuing a degree in Computer Science or a related field
- Programming skills in JavaScript/TypeScript
- Experience with Firebase and React
- Understanding of software development best practices
- Excellent problem-solving and analytical skills
- Strong communication and teamwork skills

Additional Information:

- This is an unpaid internship.
- The intern will be expected to work 20-30 hours per week.
- This internship may be completed remotely.
- The intern will be eligible for academic credit, depending on their school's policies.

To apply:

Please submit your resume or portfolio of your work to info@lyfelit.com. We thank all applicants for their interest, however, only those selected for an interview will be contacted.
